

# KY Probate Forms™

For **Windows 7/XP/2000** and **Mac OSX**

*The Databasing Probate program with auto-calculating numeric fields and clairvoyant Attorney and Client data fields*

## **Simplify Your Work**

Never enter duplicate information on forms ever again. With this databasing software, your Attorney and Client information need only be entered once, and then that data goes to all those fields, on all Probate forms.

Money and number fields are automatically calculated and totalled in the appropriate places thereby removing the need to manually do the math and/or entering wrong numbers on the forms.

This program can store more than 4million client records and these can be accessed at any time for revisions and/or reprinting.

Anyone can master this program in under 10 minutes - so users can spend time on more profitable activities, not learning a new program.

## **Bottom Line**

There's plenty of white space here where I could write 'blah blah blah' about the program. But let's not waste anymore time.

Take 5 minutes, download the demo, try it - if you don't think it will save you time and money, you've lost 5 minutes.

Otherwise, the program is \$249 - the order page is on-line - we take Visa/MC/AmEx, and we ship it immediately to you via the internet.

## **One Last Thing**

Referrals - we have thousands of very happy customers who you can call, who will tell you how eagerly we have taken customer suggestions and implemented them into our program(s). We get to make better product(s) over time, customers are happy, and everyone benefits. So we'll be thrilled to add any additional universally used KY probate forms to the program.

The demo is at:
