

Installing the Software And Using the Documentation

Installing CAdeeds

On the enclosed CD, find the file named CAdeeds.zip – copy this to your Windows desktop. Once this file is copied to your desktop, double click on it to extract the program folder to your desktop. Once extracted, find the file named CAdeeds.exe, double click on it to launch the program.

CAdeeds User's Guide

Once the program is open, you can navigate to the Help page which explains how to use the program, save records, and print the deeds.

Windows 7 Users – see Win7 Permissions.pdf on the CD.

If you get an error message in the program (saying the program cannot be modified) when running the program, there may be Windows 7 Permissions problems – please see the file on the CD named Win7Permissions.pdf or visit www.technovation.com/win7info.pdf to adjust permissions allowing the program to run on Windows 7.
